Welcome Address & Programme Update
Welcome! Despite the challenges everyone has been facing over the past year with the pandemic, Green Campus has continued to grow and deliver:

1. #GetYourKnitOn by IT Sligo
   - 1000 jumper pictures
   - 1000 degrees saved
   - 1000 Euro donated
   Social media campaign

2. Climate Ambassador Programme
   - Weekly Network Gatherings on different themes & what we learned:
     - Host screenings & webinars
     - Bring in diversity from your network
     - Make it interactive

3. Urban Garden-Grow your own by Ballsbridge College
   To ENCOURAGE, ENGAGE, EDUCATE students to create their own gardens and grow their own food
   - Provided equipment
   - Training
   - Sharing recipes
   - Demos & pics

4. Three initiatives by University College Cork
   - What The Frack
     - A student run and produced environmental podcast
   - The Climax
     - A resource booklet relating to specific environmental topics
   - Upcycled
     - A digital environmental magazine by UCC Environmental Society

THE GREEN-CAMPUS ONLINE NETWORK MEETING 2021 INCLUDED...

Two breakout workshops to discuss:
- What positive things have happened in the Green Campus network in the past year?
- What have been the main challenges in the Green Campus network in the past year?
- What do we need to STOP, START, CONTINUE, and how can we achieve our ambitions in 2021?
1. What positive things have happened in the Green Campus network in the past year?

2. What have been the main challenges in the Green Campus network in the past year?

WORD CLOUDS

We asked everyone to answer these two questions via an interactive online word cloud.
BREAK OUT WORKSHOPS

Over two short workshops, we asked everyone to consider what the Network needs to do?
STOP, START & CONTINUE doing?

MORE FUNDING
- Support for environmental/sustainability position in every campus
- Lobby as a network for more funding
- Share where current funding can be found

SHARE
- Mentoring between new/experienced campuses
- Monthly meetings to share, network and ask advice
- Share resources between campus - campaign info and ideas

BUILD BACK BETTER
- How to restart initiatives
- Create links to natural areas
- More health and wellbeing links with the programme
- Give students a voice creatively when designing campaigns

COLLECTIVE VOICE
- The collective voice of students and campuses can look for greater change.
- Communicate effectively - people engage with hopeful messages

REPLICATE BEST PRACTICE
- Reward and highlight student best practice
- Helpful and positive graphics help people to engage
- Water refill stations - students see how many plastic bottles are saved
- Ask students to verify any staff led initiatives

COMMUNICATE
- Use student language to communicate
- Use their platforms - social media, podcasts
- Transition to colour coded systems - universal language
