- · What positive things have happened in the Green Campus network in the past year?
- · What have been the main challenges in the Green Campus network in the past year?
- What do we need to STOP, START, CONTINUE? And how can we achieve our ambitions IN 2021?

Climate Ambassador Programme

> Weekly Network Gatherings on different themes & what we learnt:

- Bring in diversity from your network **
- · Make it interactive

Three initiatives by University College Cork

'What The Frack'

A student run and produced environmental podcast

The Clime

A resource booklet relating to specific environmental topics Uprooted

A digital environmental magazine by UCC Environmental Society

1. What positive things have happened in the Green Campus network in the past year?

We asked everyone to answer these two questions via an interactive online word cloud.

2. What have been the main challenges in the Green Campus

WIDER REACH STRONGER FOCUS ON NATURE AND WILDLIFE MATIONAL GREEN WEEK LESS COMMUTING CONTINUED STUDENT ACTIVITY WIND WAR CONTACT

CORRECT DATA

BREAK OUT WORK SHOPS

Over two short workshops, we asked everyone to consider what the Network needs to STOP, START & CONTINUE doing?

- · Mantaring between new/ experienced campuses
- · Monthly meetings to share, network and ask advice
- · Share resources between campus campaign info and idea

MORE FUNDING

- Support for environmental/ sustainability position in every campus
- Lobby as a network for more funds
- Share where current funding can be found

BUILD BACK BETTER

- · How to restart initiatives
- · Create links to natural areas
- More health and wellbeing links with the programme
- Give students a voice creatively when designing campaigns

REPLICATE

BEST PRACTICE

- · Reward and highlight student best practice
- · Hopeful and positive graphics help people to engage
- * Water refill stations students see how many plastic bottles are saved
- Ask students to verify any staff led initiatives.

COMMUNICATE

- Usa students language to communicate
- · Use their platforms social media, podcasts
- Transition to colour coded systems universal language

COLLECTIVE VOICE

- The collective voice of students and compuses can look for greater change.
- Communicate effectively people engage with hopeful messages
